1. Applicant is reminded that in order to avoid an abandonment of this application, the drawings must be corrected in accordance with the instructions set forth in herein. In addition to the drawing informalities noted on PTOL 948, the Examiner makes the following requirements.

Figure 2 should be labeled Fig 2a and Fig 2b, with appropriate descriptions added to the specification, as this figure is in essence two drawings.

Also, it is noted that the instant specification includes and Appendix section including tables, which are intended to be printed with the patent. Under the Rules of Practice, 37 CFR 1.58(a) states: "The specification, including the claims, may contain chemical and mathematical formulas, but shall not contain drawings or flow diagrams." In this appendix, tables i and ii are considered to be drawings. Accordingly, these tables must be submitted as drawing figures 23 and 24, with a brief description added for each, and the appendix amended to refer to the figure numbers instead of the table numbers.

Formal drawings must be submitted for approval as soon as possible, and should be accompanied by an Amendment filed under 37 CFR 1.312 (rule 312 amendment) to the specification reflecting the changes to the drawings. Should Applicant have
